Standard Bidding Document for Open Tendering

The Procurement of Works (Small Contracts)

(January 2013)

Ministry of Finance and Economic Development
Issued: _____

Preface

1. This Standard Bidding Document (SBD) has been prepared by the Government of Belize, Ministry of Finance and Economic Development, for the Procurement of Small Works and Related Services under the Open Tendering method when financed by public funds (State or other public source of funds) and to enable a Procuring Entity to select the lowest evaluated Bidder.

2. These SBDs dated _____*[insert date]* are in accordance with the Government of Belize's procedures for the procurement of Goods, Works and Services, and have been adapted to the needs of Belize from internationally acceptable model formats. The SBDs when properly completed will provide all the information that a Bidder needs in order to prepare and submit a Tender. This should provide a sound basis on which the Procuring Entity can fairly, transparently, and accurately carry out a Bid evaluation process.

3. This standard document shall be used for the Open Tendering method and may also be used for the Selective Tendering method, whereby Tenderers are invited from a list of pre-selected Bidders where a list is maintained, and for the Limited Tendering procedure. For small, lower value works, usually no pre-qualification process takes place before the Bid Document is issued.

4. These SBDs are for lump sum type Contracts priced against an activity schedule, listing the main activities. A Breakdown of Lump Sum Prices showing rates and prices for all items of the Works described in the Schedule of Works, including the delivery of materials to the Site, is provided separately to give a basis for processing progress payments to the Contractor.

5. Lump sum Contracts are used for buildings, rehabilitation and other forms of construction where the Works are well defined and are unlikely to change in quantity or specification, and where encountering difficult or unforeseen site conditions (for example, hidden foundation problems) is unlikely.

6. This Standard Bidding Document has been prepared for the procurement of Works with an estimated value of more than BZD 20,000. Guidelines and instructions for the use of the SBD are described within this tender document model in the italic text into brackets []. Users are also encouraged to refer to Section 20 Standard Bidding Documents & Important Clauses of the Public Procurement Procedure Handbook (PPPH - Volume I) and to the relevant Guidance Notes for SBDs (Annex VII b, PPPH - Volume II).

In order to simplify the preparation of Bidding Documents, for each procurement, the SBDs group the provisions that are intended to be used unchanged in Section I. The forms to be used are provided in Section VII. Bidding Forms, and Section VIII. Contract Forms.

Care should be taken to check the relevance of the provisions of the SBDs against the requirements of the specific Works to be procured. The following general directions should be observed when using the documents. In addition, each section is prepared with notes intended only as information for the Employer or the person drafting the Bidding Documents. They shall not be included in the final documents, except for the notes introducing Section VIII. Forms where the information is useful for the Bidder.

(a) Specific details, such as the “name of the Employer” and “address for bid submission,” should be furnished in the Invitation for Bids, the Bid Data Sheet, and the Special Conditions of Contract. The final documents should contain neither blank spaces nor options.

The final documents should contain no footnotes.

(d) The criteria for Bid evaluation and the various methods of evaluation in the Instructions to Bidders and Bid Data Sheet should be carefully reviewed. Only those that are selected to be used for the procurement in question should be retained and expanded, as required, in the Bid Data Sheet or in the Technical Specifications, as appropriate. The criteria that are not applicable should be deleted from the Bid Data Sheet.

(e) Clauses included in the Special Conditions of Contract are illustrative of the provisions that should be drafted specifically by the Employer for each procurement package.

(f) The forms provided in Section VII. Bidding Forms should be completed by the Bidder or the Contractor; the footnotes in these forms should remain, since they contain instructions which the Bidder or the Contractor should follow.

A GENERAL

1. Scope of Bid

- 1.1 The Employer as defined in the **Bid Data Sheet (BDS)** invites bids for the construction of Works, as described in the **BDS**. The name and identification number of the Contract is provided in the **BDS** and the **SCC**.
- 1.2 The successful Bidder shall be expected to complete the Works by the Intended Completion Date specified in the **BDS** and the **SCC**.

2. Source of Funds

- 2.2 For the purpose of this provision, “public funds” means any monetary resources appropriated to the Employer or Purchaser under Government budget, or other public source of funds.

3. Fraud and Corruption

- 3.1 The Government of Belize (GOB) requires Procuring Entities, as well as Bidders, Suppliers, Contractors, and Consultants to observe the highest standard of ethics during the procurement and execution of contracts. In pursuance of this policy, the GoB:
 - (a) Considers, for the purposes of this provision, the terms set forth below as follows:
 - (i) “corrupt practice” means the offering, giving, receiving, or soliciting of anything of value to influence the action of a public official in the procurement process or in contract execution;
 - (ii) “fraudulent practice” means a misrepresentation of facts in order to influence a selection process or the execution of a contract to the detriment of the Government of Belize, and includes collusive practices among Bidders (prior to or after submission of bids and proposals) designed to establish prices at artificial, noncompetitive levels and to deprive the Government of the benefits of free and open competition;
 - (iii) “collusive practice” means a scheme of arrangement between two or more Bidders, designed to establish bid prices at artificial, non-competitive levels or to influence the action of any party in the procurement process or the execution of a contract;
 - (iv) “coercive practice” means harming or threatening to harm, directly or indirectly, persons, or their property to influence their participation in a procurement process, or affect the execution of a contract.

- (b) Will reject a bid and/or proposal for award if it determines that the Bidder recommended for award has engaged in corrupt or fraudulent practices in competing for the contract in question.
 - (c) Will declare a firm ineligible, either indefinitely or for a stated period of time, to be awarded a contract funded by the GoB, if at any time determines that the firm has engaged in corrupt or fraudulent practices in competing for, or in executing a contract.
- 3.2 The Government of Belize will cancel the portion of the funds allocated to a Contract if it determines at any time that representatives of the Bidders, Suppliers, Contractors or Consultants have engaged in corrupt, fraudulent, collusive or coercive practices during the procurement or the execution of that contract, without, Bidders, Suppliers, Contractors and Consultants having taken timely and appropriate action satisfactory to the Government of Belize to remedy the situation.
- 3.3 The GoB retains the right to inspect and audit the records of any Bidder or Contractor relating to either the bidding process itself or the resulting award and execution of a contract. The inspection and audit may, at the discretion of the GoB, be undertaken by independent auditors appointed by them. This provision is applicable to unsuccessful and successful Bidders and their sub-contractors. Furthermore, the Bidders' attention is drawn to **GCC Sub-Clause 12.2**.

E EVALUATION OF BIDS

22. Process to be Confidential

- 22.1 Information relating to the examination, clarification, evaluation, and comparison of Bids and recommendations for the award of a Contract shall not be disclosed to Bidders or any other persons not officially concerned with such process until the award to the successful Bidder has been announced.
- 22.2 Any effort by a Bidder to influence the Employer's processing of Bids or award decisions may result in the rejection of its Bid.
- 22.3 From the time of Bid opening to the time of Contract award, if any Bidder wishes to contact the Employer on any matter related to the Bid, it should do so only in writing.

23. Clarification of Bids

- 23.1 To assist in the examination, evaluation, and comparison of bids, the Employer may, at the Employer's discretion, ask any Bidder for clarification of the Bidder's Bid, including breakdowns of unit rates. The request for clarification and the response shall be in writing or by facsimile, but no change in the price or substance of the Bid shall be sought, offered, or permitted except as required to confirm the correction of arithmetic errors discovered by the Employer in the evaluation of the bids in accordance with **ITB Clause 25**.

24. Preliminary Examination of Bids

- 24.1 If any of the following documents or information is missing from the submitted Bid, the Bid shall be rejected:
- (a) Signed (in original) Form of Bid, in the format indicated in Section VIII;
 - (b) Bid Security or Bid-Securing Declaration, in accordance with **ITB Clause 16**;
 - (c) Priced Activity Schedule, in accordance with **ITB Clause 14**.
- 24.2 Prior to the detailed evaluation of Bids, the Employer will determine whether each Bid:
- (a) meets the eligibility criteria defined in **ITB Clause 4**;

- (b) has been properly signed; and
- (c) is substantially responsive to the requirements of the Bidding Documents.

24.3 A substantially responsive Bid is one which conforms to all the terms, conditions, and specifications of the Bidding Documents, without material deviation or reservation. A material deviation or reservation is one:

- (a) which affects in any substantial way the scope, quality, or performance of the Works;
- (b) which limits in any substantial way, inconsistent with the Bidding Documents, the Employer's rights or the Bidder's obligations under the Contract; or
- (c) whose rectification would affect unfairly the competitive position of other Bidders presenting substantially responsive bids.

24.4 If a Bid does not meet the eligibility criteria defined in **ITB Clause 4**, has not been properly signed, or is not substantially responsive, it will be rejected by the Employer, and may not subsequently be made responsive by correction or withdrawal of the non-conforming deviation or reservation.

25. Correction of Errors

25.1 Bids determined to be substantially responsive will be checked by the Employer for any arithmetic errors. Errors will be corrected by the Employer as follows:

- (a) Where there is a discrepancy between the amounts in figures and in words, the amount in words will govern.
- (b) Where there is a discrepancy between the unit rate and the line item total resulting from multiplying the unit rate (plus relevant taxes and duties) by the quantity, the unit rate as quoted will govern, unless in the opinion of the Employer there is an obviously gross misplacement of the decimal point in the unit rate, in which case the line item total as quoted will govern, and the unit rate will be corrected.
- (c) Where there is a discrepancy between the sub-total and the total resulting from adding the sub-totals, the sub-total as quoted will govern.

26. Evaluation of Responsive Bids

26.1 The Employer will evaluate and compare only the Bids determined to be substantially responsive in accordance with **ITB Sub-Clause 24.3**.

26.2 In evaluating the Bids, the Employer will determine for each Bid the evaluated Bid price by adjusting the Bid price as follows:

- (a) making any correction for errors pursuant to **ITB Clause 25**;
- (b) excluding provisional sums and the provision, if any, for contingencies in the Activity Schedule;
- (c) making an appropriate adjustment for any other acceptable variations or deviations, submitted in accordance with **ITB Sub-Clause 26.3**;

(d) making appropriate adjustments to reflect discounts or other price modifications offered in accordance with **ITB Sub-Clause 20.4**.

26.3 The Employer reserves the right to accept or reject any variation or deviation, or alternative offer. Variations or deviations and other factors which are in excess of the requirements of the Bidding Documents or otherwise result in unsolicited benefits for the Employer will not be taken into account in Bid evaluation.

F POST QUALIFICATION AND AWARD

27. Post-Qualification

27.1 After completing the evaluation of responsive Bids, the Employer shall determine to its satisfaction whether the Bidder that is selected as having submitted the lowest evaluated and substantially responsive Bid is qualified to perform the Contract satisfactorily.

27.2 The determination shall be based upon an examination of the documentary evidence of the Bidder's qualifications submitted by the Bidder pursuant to **ITB Sub-Clauses 6.1 and 6.2**, and any clarifications in accordance with **ITB Sub-Clause 23.1**.

27.3 An affirmative determination shall be a prerequisite for award of the Contract to the Bidder. A negative determination shall result in disqualification of the Bid, in which event the Employer shall proceed to the next lowest evaluated Bid to make a similar determination of that Bidder's capabilities to perform satisfactorily.

28. Employer's Right to Accept or Reject any Bid

28.1 The Employer reserves the right to accept or reject any Bid, and to annul the bidding process and reject all Bids at any time prior to Contract award, without thereby incurring any liability to the Bidders, or any obligation to inform the affected Bidders of the grounds for the Employer's action.

29. Award Criteria

29.1 Subject to **ITB Clause 26**, the Employer shall award the Contract to the Bidder whose Bid has been determined to be substantially responsive to the Bidding Documents and has offered the lowest evaluated Bid, provided that the Bidder has likewise been determined to be qualified to perform the Contract satisfactorily.

30. Notification of Award and Signing of the Agreement

30.1 The Bidder whose Bid has been accepted shall be notified of the award by the Employer, prior to the expiration of the Bid validity period, through a Letter of Acceptance, which form is provided in Section VIII. This letter will state the sum that the Employer will pay the Contractor in consideration of the execution, completion, and maintenance of the Works by the Contractor as prescribed by the Contract (hereinafter and in the Contract called the "Contract Price").

30.2 Until a formal Contract is prepared and executed, the notification of award shall constitute a binding Contract.

30.3 Within fourteen (14) days following the notification of award along with the Letter of Acceptance, the Employer shall send to the successful Bidder a signed Agreement that incorporates all agreements between the Employer and the successful Bidder. The successful bidder shall sign and return the contract within fourteen (14) days.

31. Performance Security

31.1 Within fourteen (14) days of the receipt of notification of award and Letter of Acceptance from the Employer, the successful Bidder shall furnish the Performance Security in an amount specified in and in accordance with the **GCC**.

31.2 The Performance Security shall be in the form of a Bank Guarantee in accordance with the form included in **Section IX. Security Forms** of these Bidding Documents, and issued by a reputable Bank located in Belize and acceptable to the Employer.

31.3 Failure of the successful Bidder to comply with the requirements of **ITB Sub-Clause 31.1** shall constitute sufficient grounds for cancellation of the award and forfeiture of the Bid Security or execution of the Bid Declaration.

31.4 Upon receipt of the Performance Security, the Employer will promptly notify the other Bidders of the results of the bidding procedure.

32. Advance Payment

32.1 The Employer will furnish an Advance Payment on the Contract Price as stipulated in the General Conditions of Contract, subject to a maximum amount, as stated in the Special Conditions of Contract and subject to the provision of an acceptable advance payment security.

33. Adjudication

33.1 The Employer proposes the person named in the **BDS** to be appointed as Adjudicator under the Contract, at an hourly fee specified in the **BDS**, plus reimbursable expenses. If the Bidder disagrees with this proposal, the Bidder should so state in the Bid along with furnishing a registration fee of 2% of the estimated value of the procurement. If, in the Letter of Acceptance, the Employer has not agreed on the appointment of the Adjudicator, the Adjudicator shall be appointed by the Appointing Authority designated in the Conditions of Contract at the request of either party.

34. Debriefing

34.1 After the award of contract has been announced, an unsuccessful Bidder has the right to request a debriefing to ascertain why its bid was unsuccessful and the Employer the obligation to provide it. No commercial confidences will be breached and no information concerning other Bids will be disclosed other than the

information already read out at bid opening and the reasons for any and all bids rejection..

- 34.2 Within 14 days of a Bidder's request for Debriefing, the Debriefing will either be delivered in writing by the Employer or a meeting held chaired by a representative of the Employer at the discretion of the Employer. If a meeting is held, it will be minuted and Minutes signed by both Parties, and a copy of the Minutes issued to the Bidder.

A copy of the complaint should also be sent to the designated official of the Ministry of Finance and Economic Development at the address indicated in the **BDS**. The Project Manager will approve any proposed replacement of key personnel only if their relevant qualifications and abilities are substantially equal to or better than those of the personnel listed in the Schedule.
- 13.2. If the Project Manager asks the Contractor to remove a person who is a member of the Contractor's staff or work force, stating reasons and citing examples of a lack of professional competence or personal misconduct, the Contractor shall ensure that the person leaves the Site within seven (7) days and has no further connection with the work in the Contract.

13.3. During continuance of the Contract, the Contractor and his Sub-Contractors shall abide at all times by all Labour Laws applicable in Belize, including child labour related enactments, and other relevant rules, as referred to in **Clause 53** of these GCC.

14. Sub-Contracting

14.1. The Contractor may sub-contract to the limits and parties indicated in its Bid without the prior approval of the Project Manager. Sub-contracting outside of that specifically described in the Contractor's Bid shall require the Project Manager's prior written approval. The Contract may not be assigned to any other party. The Contractor shall be liable for the work of any and all Sub-Contractors employed by the Contractor.

15. Other Contractors

15.1. The Contractor shall cooperate and share the Site with other Contractors, public authorities, utilities, and the Employer between the dates given in the Schedule of Other Contractors, as referred to in **SCC**. The Contractor shall also provide facilities and services for them as described in the Schedule. The Employer may modify the Schedule of Other Contractors, and shall notify the Contractor of any such modification.

16. Contractor's Risks

16.1. From the Starting Date until the Defects Correction Certificate has been issued, the risks of personal injury, death, and loss of or damage to property (including, without limitation, the Works, Plant, Materials, and Equipment) which are not Employer's risks are Contractor's risks.

17. Insurance

17.1. The Contractor shall provide, in the joint names of the Employer and the Contractor, insurance cover from the Start Date to the end of the Defects Liability Period, in the amounts and deductibles stated in the **SCC** for the following events which are due to the Contractor's risks:

- loss of or damage to the Works, Plant, and Materials;
- loss of or damage to Equipment;
- loss of or damage to property (except the Works, Plant, Materials, and Equipment) in connection with the Contract; and
- personal injury or death.

17.2. Policies and certificates for insurance shall be delivered by the Contractor to the Project Manager for the Project Manager's approval before the Start Date. All such insurance shall provide for compensation to be payable in the types and proportions of currencies required to rectify the loss or damage incurred.

17.3. Alterations to the terms of insurance shall not be made without the approval of the Project Manager.

- 17.4. Both Parties shall comply with any conditions of the insurance policies.
- 17.5. If the Contractor does not furnish any of the policies and certificates required, the Employer may effect the insurance which the Contractor should have provided and recover the premiums the Employer has paid from payments otherwise due to the Contractor or, if no payment is due, the payment of the premiums shall be a debt due.

18. Drawings and Manuals

- 18.1. If “as built” Drawings and/or operating and maintenance manuals are required, the Contractor shall supply them prior to the issue of the Certificate of Completion. If the Contractor does not supply the Drawings and/or manuals by the dates stated, or they do not receive the Project Manager’s approval, the Project Manager shall be entitled to withhold the return of the first portion of the retention monies described in **GCC Sub-Clause 46.2**.

19. Performance Security

- 19.1. The Performance Security shall be furnished to the Employer no later than 14 days after the Contractor’s receipt of the Letter of Acceptance and shall be issued in an amount and form described in the **SCCs**. The Performance Security shall be valid until a date 30 days from the date of issue of the Certificate of Completion.

C. THE EMPLOYER’S RIGHTS, OBLIGATIONS AND RESPONSIBILITIES

20. Possession of Site

- 20.1. The Employer shall give possession of all parts of the Site to the Contractor. If possession of a part is not given by the date stated in the Contract Data, the Employer will be deemed to have delayed the start of the relevant activities, and this will be a Compensation Event.

21. The Project Manager’s Decisions

- 21.1. Except where otherwise provided in **Clause 35**, the Project Manager will decide contractual matters between the Employer and the Contractor in the role representing the Employer.

22. Delegation

- 22.1. The Project Manager may delegate any of his duties and responsibilities to other people, except to the Adjudicator, after notifying the Contractor, and may cancel any delegation after notifying the Contractor.

23. Queries about the Contract

- 23.1. The Project Manager will clarify queries on the Contract.

24. Licenses and Permits

24.1. The Employer shall, if requested by the Contractor, assist him in applying for permits, licenses or approvals, which are required for the Works. However, obtaining the necessary permits, licenses and approvals shall be the sole responsibility of the Contractor unless the issue of such is at the discretion of the Employer. No delay in obtaining any permit, license or approval that was in force on the date of the Invitation for Bids will be considered as a force majeure event.

25. Approval by the Project Manager

25.1. All drawings, specifications and designs for works whether temporary or permanent prepared by the Contractor shall be subject to the prior approval of the Project Manager, who is to approve them if they comply with the Specifications and Drawings. Such approval if granted will in no way remove the Contractor's responsibility and liabilities for the design of such works.

26. Employer's Risks

26.1. From the Start Date until the Defects Correction Certificate has been issued, the following are Employer's risks:

- a) The risk of personal injury, death, or loss of or damage to property (excluding the Works, Plant, Materials, and Equipment), which are due to:
 - i) the use or occupation of the Site by the Works or for the purpose of the Works, which is the unavoidable result of the Works; or
 - ii) negligence, breach of statutory duty, or interference with any legal right by the Employer or by any person employed by or contracted to him except the Contractor;
- b) The risk of damage to the Works, Plant, Materials, and Equipment to the extent that it is due to a fault of the Employer or Employer's design, or due to war or radioactive contamination directly affecting the country where the Works are to be executed.

26.2. From the Completion Date until the Defects Correction Certificate has been issued, the risk of loss of or damage to the Works, Plant, and Materials is an Employer's risk, except loss or damage due to:

- a) Defect which existed on the Completion Date;
- b) Event occurring before the Completion Date, which was not itself an Employer's risk; or
- c) Activities of the Contractor on the Site after the Completion Date.

D. CONTRACT MANAGEMENT

27. Programme

- 27.1. Within the time stated in the **SCC**, the Contractor shall submit to the Project Manager for approval a Programme showing the general methods, arrangements, order, and timing for all the activities in the Works.
- 27.2. An update of the Programme shall be a program showing the actual progress achieved on each activity and the effect of the progress achieved on the timing of the remaining work, including any changes to the sequence of the activities.
- 27.3. The Contractor shall submit to the Project Manager for approval an updated Programme at intervals no longer than the period stated in the **SCC**. If the Contractor does not submit an updated Programme within this period, the Project Manager may withhold the amount stated in the Contract Data from the next payment certificate and continue to withhold this amount until the next payment after the date on which the overdue Programme has been submitted.
- 27.4. The Project Manager's approval of the Programme shall not alter the Contractor's obligations. The Contractor may revise the Programme and submit it to the Project Manager again at any time. A revised Programme shall show the effect of Variations and Compensation Events.

28. Acceleration

- 28.1. When the Employer wants the Contractor to finish before the Intended Completion Date, the Project Manager will obtain priced proposals for achieving the necessary acceleration from the Contractor. If the Employer accepts these proposals, the Intended Completion Date will be adjusted accordingly and confirmed by both the Employer and the Contractor.
- 28.2. If the Contractor's priced proposals for acceleration are accepted by the Employer, they are incorporated in the Contract Price and treated as a Variation.

29. Suspension of Works

- 29.1. The Project Manager may instruct the Contractor to delay the start or progress of any activity within the Works.

30. Management Meeting

- 30.1. Either the Project Manager or the Contractor may require the other to attend a management meeting. The business of a management meeting shall be to review the plans for remaining work and to deal with matters raised in accordance with the early warning procedure.
- 30.2. The Project Manager shall record the business of management meetings and provide copies of the record to those attending the meeting and to the Employer. The responsibility of the parties for actions to be taken shall be

decided by the Project Manager either at the management meeting or after the management meeting and stated in writing to all who attended the meeting.

31. Extension of Time

- 31.1. The Project Manager shall extend the Intended Completion Date if a Compensation Event occurs or a Variation is issued which makes it impossible for Completion to be achieved by the Intended Completion Date without the Contractor taking steps to accelerate the remaining work, which would cause the Contractor to incur additional cost.
- 31.2. The Project Manager shall decide whether and by how much to extend the Intended Completion Date within 14 days of the Contractor asking the Project Manager for a decision upon the effect of a Compensation Event or Variation and submitting full supporting information. If the Contractor has failed to give early warning of a delay or has failed to cooperate in dealing with a delay, the delay by this failure shall not be considered in assessing the new Intended Completion Date.

32. Variations

- 32.1 All Variations shall be included in updated Programmes produced by the Contractor.
- 32.2 The Contractor shall provide the Project Manager with a quotation for carrying out the Variation when requested to do so by the Project Manager. The Project Manager shall assess the quotation, which shall be given within seven days of the request or within any longer period stated by the Project Manager and before the Variation is ordered.
- 32.3 When the works covered by such a Variation are on the critical path and the ordering is beyond seven days, the time period beyond seven (7) days shall be added to the time for completion and be regarded as a delay ordered by the Project Manager in accordance with **GCC Sub-Clause 45.1(c)**.
- 32.4 If the work in the Variation corresponds with an item description in the Activity Schedule and if the quantity of work is below the limit stated in **GCC Sub-Clause 40.3** or the timing of its execution does not cause the cost per unit of quantity to change, the rate in the Activity Schedule shall be used to calculate the value of the Variation. If the cost per unit of quantity changes above the limit stated in **GCC Sub-Clause 40.3**, or if the nature or timing of the work in the Variation does not correspond with items in the Activity Schedule, the quotation by the Contractor shall be in the form of new rates for the relevant items of work.
- 32.5 If the Variation is urgent and required to ensure the damage to the works, the site or its immediate environs or affects the safety of any personnel present on the site, the Project Manager may decide that the urgency of varying the work would prevent a quotation being given and considered without delaying the work, no quotation shall be given and the Variation shall be treated as a Compensation Event.

33. Completion

- 33.1 The Contractor shall request the Project Manager to issue a certificate of Completion of the Works.
- 33.2 Within 14 days of the Contractor requesting a Certificate of Completion, the Project Manager shall either notify the Contractor that he considers that the Contractor has completed the Works stating the date accordingly or notify the Contractor of the remaining works to be completed.
- 33.3 The Employer shall take over the Site and the Works within seven (7) days of the Project Manager's issuing a Certificate of Completion.

34. Early Warning

- 34.1 A Party shall notify the other as soon as it is aware of any circumstance which may delay or disrupt the Works, or which may give rise to a claim for additional payment. The Contractor shall take all reasonable steps to minimise these effects.
- 34.2 The Contractor will promptly provide the Project Manager an estimate of the expected effect of the future event or circumstance on the Contract Price and Completion Date.
- 34.3 The Contractor shall not be entitled to additional payment for costs that could have been avoided by giving early warning when the Contractor was in a position to provide such warning.

35. Resolution of Disputes

- 35.1 Unless settled amicably, any dispute or difference which arises between the Contractor and the Employer out of or in connection with the Contract, including any valuation or other decision of the Employer, shall be referred by either Party to an Adjudicator.
- 35.2 If the Employer and the Contractor are unable to reach mutual agreement on the appointment of the Adjudicator, the Belize Chamber of Commerce and Industry as the Appointing Authority, may be asked by either party to provide the CVs of three available Adjudicators, none of whom will be nationals of the Contractor's country should that country be other than Belize. Each Party shall then strike off the name of one of the proposed adjudicators and the remaining one shall be appointed.
- 35.3 If the Contractor believes that a decision taken by the Project Manager was either outside the authority given to the Project Manager by the Contract or that the decision was wrongly taken, the decision shall be referred to the Adjudicator within 14 days of the notification of the Project Manager's decision.
- 35.4 The Adjudicator shall be paid by the hour at the rate proposed by the Belize Chamber of Commerce and Industry, together with reasonable expenses to cover accommodation, travel and communications as necessary. The cost shall

be divided equally between the Employer and the Contractor, whatever decision is reached by the Adjudicator. Either Party may refer a decision of the Adjudicator to an Arbitrator within 28 days of the Adjudicator's written decision. If neither Party refers the dispute to arbitration within the above 28 days, the Adjudicator's decision will be final and binding.

- 35.5 Any dispute that cannot be resolved amicably to the satisfaction of either one of the Parties through adjudication may be referred to and settled under the Arbitration Act, Chapter 125 of the Laws of Belize (Revised Edition of 2000), by one or more Arbitrators appointed in accordance with the said Act. The ruling of the Arbitrator(s) shall be binding on both Parties.

E. QUALITY CONTROL

36. Identifying Defects

- 36.1 The Project Manager shall check the Contractor's work and notify the Contractor of any Defects that are found. Such checking shall not affect the Contractor's responsibilities. The Project Manager may instruct the Contractor to search for a Defect and to uncover and test any work that the Project Manager considers may have a Defect.

37. Tests

- 37.1 If the Project Manager instructs the Contractor to carry out a test not specified in the Specification to check whether any work has a Defect and the test shows that it does, the Contractor shall pay for the test and any samples. If there is no Defect, the test shall be a Compensation Event.

38. Correction of Defects

- 38.1 The Project Manager shall give notice to the Contractor of any Defects before the end of the Defects Liability Period, which begins at Completion, and is defined in the SCC. The Defects Liability Period shall be extended for as long as Defects remain to be corrected.
- 38.2 Every time notice of a Defect is given, the Contractor shall correct the notified Defect within the length of time specified by the Project Manager's notice. Any defect noticed by the Contractor shall be corrected by the Contractor before the expiry of the Defects Liability Period.
- 38.3 The Project Manager shall approve all corrected defects.
- 38.4 If the Contractor has not corrected a defect within the time specified in the Project Manager's notice, the Project Manager will correct it using a third party and the Contractor will pay this amount.

39. Cost of Repairs

- 39.1 Loss or damage to the Works or materials to be incorporated in the Works between the Start Date and the end of the Defects Correction periods shall be

remedied by the Contractor at the Contractor's cost if the loss or damage arises from the Contractor's acts or omissions.

F. COST CONTROL

40. Activity Schedule

- 40.1 The Contractor shall provide updated Activity Schedules within 14 days of being instructed to by the Project Manager. The activities on the Activity Schedule shall be coordinated with the activities on the Program.
- 40.2 The Contractor shall show delivery of materials to the Site separately on the Activity Schedule if payment for materials on Site shall be made separately.
- 40.3 The Activity Schedule shall be amended by the Contractor to accommodate changes of Programme or method of working made at the Contractor's own discretion. Prices in the Activity Schedule shall not be altered when the Contractor makes such changes to the Activity Schedule.

41. Taxes and Duties

- 41.1 The Project Manager shall adjust the Contract Price if taxes, duties, and other levies are changed between the date 28 days before the submission of Bids for the Contract and the date of the last Completion certificate. The adjustment shall be the change in the amount of taxes, duties and other levies payable by the Contractor, provided such changes are not already reflected in the Contract Price.

G PAYMENTS TO THE CONTRACTOR

42. Payment and Currency

- 42.1 If so specified in the SCC, the amounts certified in each payment certificate will be adjusted, before deducting for Advance Payment, by applying the respective price adjustment factor to the payment amounts due in each currency.
- 42.2 Payment shall be made in Belize Dollars and in the proportion specified in SCC. The portion of the payment in other currency (if any) shall be made using the average exchange rate of selling and buying published by the Central Bank of Belize on the date of payment.

43. Advance Payment

- 43.1 Should the Contractor request it, the Employer shall make advance payment to the Contractor of the amounts stated in the SCC within 28 days after the provision by the Contractor of an unconditional Bank Guarantee in a form and by a Bank acceptable to the Employer in amounts equal to the advance payment. The Guarantee shall remain effective until the advance payment has been repaid, but the amount of the Guarantee shall be progressively reduced

by the amounts repaid by the Contractor. Interest will not be charged on the advance payment.

- 43.2 The Contractor is to use the advance payment only to pay for Equipment, Plant, Materials, and mobilization expenses required specifically for execution of the Contract. The Contractor shall demonstrate that advance payment has been used in this way by supplying copies of invoices or other documents to the Project Manager.
- 43.3 The advance payment shall be repaid by deducting proportionate amounts from payments otherwise due to the Contractor, following the schedule of completed percentages of the Works on a payment basis. No account shall be taken of the advance payment or its repayment in assessing valuations of work done, variations, price adjustments, compensation events, bonuses, or liquidated damages.

44. Payment Certificates

- 44.1 The Contractor shall submit to the Project Manager monthly statements of the estimated value of the work executed less the cumulative amount certified previously.
- 44.2 Within 14 days of its receipt, the Project Manager shall check the Contractor's monthly statement and certify the amount to be paid to the Contractor.
- 44.3 The value of work executed shall be determined by the Project Manager.
- 44.4 Payments shall be adjusted for deductions for advance payments and retention. The Employer shall pay the Contractor the amounts certified by the Project Manager within 28 days of the date of each certificate. If the Employer makes a late payment, the Contractor shall be paid interest on the late payment in the next payment. Interest shall be calculated from the date by which the payment should have been made up to the date when the late payment is made at the rate of three percent (3%) per annum.
- 44.5 If an amount certified is increased in a later Certificate or as a result of an award by the Adjudicator or an Arbitrator, the Contractor shall be paid interest upon the delayed payment at the rate of three percent (3%) per annum. Interest shall be calculated from the date upon which the increased amount would have been certified in the absence of dispute.

45. Compensation Events

- 45.1 The following shall be Compensation Events:
 - a. The Employer does not give access to a part of the Site by the Site Possession Date stated in the Contract Data;
 - b. The Employer modifies the Schedule of Activity in a way that affects the work of the Contractor under the Contract;

- c. The Project Manager orders a delay or does not issue Drawings, Specifications, or instructions required for execution of the Works on time;
 - d. The Project Manager instructs the Contractor to uncover or to carry out additional tests upon work, which is then found to have no Defects;
 - e. The Project Manager unreasonably does not approve a subcontract to be let;
 - f. Ground conditions are substantially more adverse than could reasonably have been assumed before issuance of the Letter of Acceptance from the information issued to Bidders (including the Site Investigation Reports), from information available publicly and from a visual inspection of the Site;
 - g. The Project Manager gives an instruction for dealing with an unforeseen condition, caused by the Employer, or additional work required for safety or other reasons;
 - h. Other contractors, public authorities, utilities, or the Employer do not work within the dates and other constraints stated in the Contract, and they cause delay or extra cost to the Contractor;
 - i. The advance payment is delayed;
 - j. The effects on the Contractor of any of the Employer's Risks;
 - k. The Project Manager unreasonably delays issuing a Certificate of Completion;
 - l. If the Contractor incurs cost as a result of any of the Employer's Risk events, the Contractor shall be entitled to the amount of such cost;
 - m. Other Compensation Events described in the Contract or determined by the Project Manager shall apply.
- 45.2 If a Compensation Event would cause additional cost or would prevent the work being completed before the Intended Completion Date, the Contract Price shall be increased and/or the Intended Completion Date shall be extended. The Project Manager shall decide whether and by how much the Contract Price shall be increased and whether and by how much the Intended Completion Date shall be extended.
- 45.3 As soon as information demonstrating the effect of each Compensation Event upon the Contractor's forecast cost has been furnished by the Contractor, it shall be assessed by the Project Manager, and the Contract Price shall be adjusted accordingly. If the Contractor's forecast is deemed unreasonable, the Project Manager shall adjust the Contract Price based on the Project Manager's own forecast. The Project Manager will assume that the Contractor will react competently and promptly to the event.
- 45.4 The Contractor shall not be entitled to compensation to the extent that the Employer's interests are adversely affected by the Contractor's having not given early warning when it could have done so or not having cooperated with a reasonable instruction from the Project Manager.

46. Retention

- 46.1 The Employer shall retain ten percent (10%) from each payment due to the Contractor until Completion of the whole of the Works.
- 46.2 On completion of the whole of the Works, half the total amount retained shall be repaid to the Contractor and half when the Defects Liability Period has passed and the Project Manager has certified that all Defects notified by the Project Manager to the Contractor before the end of this period have been corrected.
- 46.3 On completion of the whole Works, the Contractor may substitute retention money with an “on demand” Bank guarantee valid for one calendar month beyond the expiry of the Defects Liability Period.

47. Final Payment

- 47.1 Within 14 days after either the expiry of the Defects Notification Period, or the remedying of notified defects or the completion of outstanding work whichever is the later, the Contractor shall submit a final account to the Employer together with any documentation reasonably required to enable the Employer to ascertain the final contract value.
- 47.2 The Project Manager shall issue a Defects Liability Certificate and certify any final payment that is due to the Contractor within 28 days of receiving the Contractor’s account if it is correct and complete. If it is not, the Project Manager shall issue within 28 days a schedule that states the scope of the corrections or additions that are necessary. If the Final Account is still unsatisfactory after it has been resubmitted, the Project Manager shall decide on the amount payable to the Contractor and issue a payment certificate.

H TERMINATION

48. Frustration

- 48.1 If the Contract is frustrated by the outbreak of war or by any other event of force majeure and the event continues for a period of 84 days, on the first working day after the 84th day the Project Manager shall issue a notice that the Contract has been frustrated. The Contractor shall make the Site safe and stop work as quickly as possible after receiving this notice and shall be paid for all work carried out before receiving it and for any work carried out afterwards to which a commitment was made.

49. Default by the Contractor

- 49.1 If the Contractor abandons the Works, refuses or fails to comply with a valid instruction of the Project Manager or fails to proceed expeditiously and without delay or is, despite a written complaint, in breach of the Contract, the Employer may give notice referring to this Sub-Clause and stating the default.

- 49.2 If the Contractor has not taken all practicable steps to remedy the default within 14 days after the Contractor's receipt of the Employer's notice, the Employer may, by a second notice given within a further 21 days, terminate the Contract. The Contractor shall then demobilise from the Site leaving behind Materials and Plant and any Contractor's Equipment which, as the Employer instructs in the second notice, is to be used until the completion of the Works.
- 49.3 All Materials on the Site, Plant, Equipment, Temporary Works, and Works shall be deemed to be the property of the Employer if the Contract is terminated because of the Contractor's default.

50. Default by the Employer

- 50.1 If the Employer fails to pay in accordance with the Contract, or is, despite a written complaint, in breach of the Contract, the Contractor may give notice referring to this Sub-Clause and stating the default. If the default is not remedied within seven (7) days after the Employer's receipt of this notice, the Contractor may suspend the execution of all or parts of the Works.
- 50.2 If the default is not remedied within 28 days after the Project Manager's receipt of the Contractor's notice, the Contractor may, by a second notice given within a further 21 days, terminate the Contract. The Contractor shall then demobilise from the Site.

51. Parties' Right to Terminate

- 51.1 The Employer or the Contractor may terminate the Contract if the other Party causes a fundamental breach of the Contract.

- a. the Contractor stops work for 28 days when no stoppage of work is shown on the current Programme and the stoppage has not been authorised by the Project Manager;

For the purpose of **GCC Sub-Clause 51.2(h)** :“corrupt practice” means the offering, giving, receiving or soliciting of anything of value to influence the action of a public official in the procurement process or in contract execution, “fraudulent practice” means a misrepresentation of facts in order to influence a procurement process or the execution of a contract to the detriment of the Government of Belize, and includes collusive practice among Bidders (prior to or after bid submission) designed to establish bid prices at artificial non-competitive levels and to deprive the Government of Belize of the benefits of free and open competition.

51.4 When either Party to the Contract gives notice of a breach of Contract to the Project Manager for a cause other than those listed under **GCC Sub-Clause 51.2** above, the Project Manager shall decide whether the breach is fundamental or not.

51.5 Notwithstanding the above, the Employer may terminate the Contract for convenience.

51.6 If the Contract is terminated, the Contractor shall stop work immediately, make the Site safe and secure, and leave the Site as soon as reasonably possible.

51.7 If a Party is declared insolvent under any applicable law, the other Party may by notice terminate the Contract immediately. The Contractor shall then demobilise from the Site leaving behind, in the case of the Contractor's insolvency, any Contractor's Equipment which the Project Manager instructs in the notice is to be used until the completion of the Works.

52. Payment on Termination

Additional Liquidated Damages shall not apply. If the total amount due to the Employer exceeds any payment due to the Contractor, the difference shall be a debt payable to the Employer.

52.2 If the Contract is terminated for the Employer's convenience or because of a fundamental breach of Contract by the Employer, the Project Manager shall issue a certificate for the value of the work done, materials ordered, the reasonable cost of removal of equipment, repatriation of the Contractor's personnel employed solely on the Works, and the Contractor's costs of protecting and securing the Works, and less advance payments received up to the date of the certificate.

SECTION V. SPECIFICATIONS & PERFORMANCE REQUIREMENTS

Notes on Specifications

A set of precise and clear specifications is a prerequisite for Bidders to respond realistically and competitively to the requirements of the Employer without introducing deviations or conditionalities in their Tenders. In the context of Open Tendering, the specifications must be drafted to permit the widest possible competition and, at the same time, present a clear statement of the required standards of workmanship, materials, and performance of the works to be procured. Only if this is done will the objectives of economy, efficiency, and fairness in procurement be realised, responsiveness of Bidders be ensured, and the subsequent task of Tender evaluation facilitated. The specifications should require that all goods and materials to be incorporated in the Works be new, unused, of the most recent or current models, and incorporate all recent improvements in design and materials, unless provided otherwise in the Contract.

Samples of specifications from previous similar projects are useful in this respect. Most specifications are normally written specially by the Employer or Engineer to suit the Contract Works in hand. There is no standard set of Specifications for universal application in all sectors, but there are established principles and practices, which are reflected in these documents.

There are considerable advantages in standardising General Specifications for repetitive Works in recognised public sectors, such as highways, ports, railways, urban housing, irrigation, and water supply, where similar conditions prevail. The General Specifications should cover all classes of workmanship, materials, and equipment commonly used in construction, although not necessarily to be used in a particular Works Contract. Deletions or addenda should then adapt the General Specifications to the particular Works. Such General Specifications are those issued by the specialised ministries/professional bodies in Belize and/or those of the International Standards Organisation (ISO).

Care must be taken in drafting specifications to ensure that they are not restrictive. In the specification of standards for goods, materials, and workmanship, recognised national standards should be used as much as possible. Where other particular standards are used, the specifications should state that goods, materials, and workmanship that meet other authoritative standards, and which ensure substantially equal or higher quality than the standards mentioned, will also be acceptable. The following clause may be inserted in the SCC or General Specifications.

Sample Clause: Equivalence of Standards and Codes

Wherever reference is made in the Contract to specific standards and codes to be met by the goods and materials to be furnished, and work performed or tested, the provisions of the latest current edition or revision of the relevant standards and codes in effect shall apply, unless otherwise expressly stated in the Contract.

[These notes for preparing Specifications are intended only as information for the Employer or the person drafting the Tender documents. They should not be included in the final documents.]

SECTION VI. DRAWINGS

The actual Drawings, including site plans, should be attached to this section or annexed in a separate folder.

SECTION VII. ACTIVITY SCHEDULE

Item No.	Specification Clause Number	Brief Description of Works	Unit of Works	Quantity of Works	Unit Rate	Taxes/Duties per Unit	Total Amount (in BZD)
1				a	b	c	$d = a \times (b + c)$
2							
3							
4							
5							
6							
7							
8							
Total Amount in BZD:							

The objectives of the Activity Schedule are:

- (a) to provide sufficient information on the quantities of Works to be performed to enable Bidders to be prepared efficiently and accurately; and
- (b) when a Contract has been entered into, to provide a priced Schedule for use in the periodic valuation of Works executed.

In order to attain these objectives, Works should be itemised in the above schedule in sufficient detail to distinguish between the different classes of works, or between works of the same nature carried out in different locations or in other circumstances that may give rise to different considerations of cost. Consistent with these requirements, the layout and content of the Activity Schedule should be as simple and brief as possible.
